

ION* Intelligence
of Nature™

Science That Reflects Nature's Wisdom

ION* is unlike anything else on the market, going beyond probiotics to work at the foundation of health.

At the heart of our innovative science is a family of **fulvate** molecules that reinforce the natural communication channels that already exist within you.

This first in class, unique formula has been proven to strengthen our protective barriers in minutes by sealing cell junctions, even in the presence of harmful toxins.

The Many Functions of ION*

Antioxidant

acts as an antioxidant by donating electrons to free radicals and by upregulating natural glutathione production in the body.

Carrier

binds to essential nutrients and transports them into the cells that need them.

Chelator

chelates to waste found within cells and removes them, providing a gentle cellular detox.

Communicator

transmits messages via redox signaling, cell to cell, and cell to bacteria.

The Journey of ION*

At ION*, we are all about connection: cell to cell, person to planet. And while our mission is evergreen, our pursuit to reawaken connection is ever evolving.

The moment ION* Founder, Zach Bush MD, realized glyphosate (the most ubiquitous toxin in our food system) was destroying human health and the planet, everything changed.

Already primed with a passion for finding root-cause solutions to human health problems, Zach Bush and team set off to better define how we support the microbiome — our foundation of wellness. Instead of supporting the gut with things like probiotics, the answer lied in sparking the body's innate ability to heal and thrive.

Zach Bush MD founder of ION* is a physician specializing in internal medicine, endocrinology and hospice care. He is an internationally recognized educator and thought leader on the microbiome as it relates to health, disease, and food systems.

Beyond the microbiome, our mission is macro.

From Zach's reflection and research, two efforts emerged:

- ION* supporting individual-level change in the microbiome.
- Farmer's Footprint 501(c)(3) driving systemic level change in food and agriculture.

Both are necessary for a regenerative future which is why we donate a percentage of every ION* purchase to Farmer's Footprint.

These donations help ensure that our combined missions are met, including banning glyphosate and restoring human and planetary health.

ExpertVoice

ION* has partnered with ExpertVoice to make learning about our products as simple and convenient as possible.

We have pocket-sized cliff notes cards that outline the most important features and benefits of ION* for easy reference, and these contain a QR code link to our ExpertVoice lessons.

All retail staff who complete our lesson (and pass the edugame) will receive a free ION* product of their choice!
