

ION* Gut Support For Pets

Frequently Asked Questions

Directions for use:

Shake Well. Ideal application is by syringe (no needle) in the corner of mouth (not squirted in – but gradually dispensed). You can also pour ION* Gut Support For Pets into one-quarter cup of dechlorinated water.

Pets can take ION* Gut Support For Pets before, during, or after a meal and still receive benefit. If you feed twice daily, you can split the following doses in half and provide twice daily.

For pet weight:

<20 lbs: 1 tsp (5 ml) daily
21 lbs to 100 lbs: 2 tsp (10 ml) daily
>101 lbs: 1 Tbsp (15 ml) daily

Sensitive Usage:

Starting with 3–5 drops of ION* Gut Support For Pets, once a day, can be a good introduction for sensitive pets. Double the usage weekly until your cat or dog is fully benefitting from the recommended usage for their weight category.

Please Note: These usage schedules are for canines and felines. ION Gut Support For Pets has not been tested in the equine environment.*

What is ION* Gut Support For Pets and what does it do?

ION* Gut Support For Pets is a liquid supplement that supplies the first line of defense against everyday exposure to environmental and food-borne toxins. It is an all-natural humic extract derived from ancient soil.

The gut lining is a barrier working to protect your pet from toxic substances such as glyphosate, gluten, and other foreign particles. But just as importantly, it functions to allow the passage of beneficial nutrients. Preserving the integrity of this barrier is key to health. Instead of feeding the microbiome with various bacterial strains, as you would get from a probiotic, ION* Gut Support For Pets works via redox signaling to maintain tight junction integrity in the epithelial layer of the gut lining.

ION* facilitates nutrient absorption, promotes kidney health, and helps with the inflammatory response promoting immune function and alleviating environmental allergy sensitivities.

Is ION* Gut Support For Pets available via subscription?

Yes! Our 16oz bottle of ION* Gut Support For Pets is available at 15% off through our ION* membership. Join now and save!

Is ION* Gut Support For Pets FDA compliant?

Yes! Our manufacturing and quality control teams adhere to all the FDA's current Good Manufacturing Practices (cGMPs), and do regular testing on ION* Gut Support For Pets for bacterial contamination, heavy metals, and overall product composition.

Further, third-party testing has shown ION* to be non-toxic on sensitive kidney cells, even at very high concentrations.

Our pet product is also a proud member of the National Animal Supplement Council (NASC) and has been through several rigorous audits to maintain our seal usage.
