

Gut Support

Our flagship product, ION* Gut Support, is an all-natural daily wellness supplement that diversifies the microbiome, supports healthy digestion, defends from toxins, and improves nutrient absorption.

Doctor-formulated and backed by science, ION* Gut Support is proven to strengthen the gut lining, improving overall gut function. ION* gets to the foundation of health so your clients and customers can thrive from head to toe.

Whole-body benefits

Digestive Support

All-natural ION* is proven to strengthen the gut lining, supporting better digestion and optimal gut function.

Immune Function

A strong gut lining allows fewer toxins and inflammatory particles getting through that can spark an immune response.

Gluten Defense

The humic extract molecules that make up ION* help activate the enzyme, DPP4, working to remove toxic peptides found in gluten.

Gut-Brain Health

The gut microbiome produces certain neurotransmitters, like serotonin and dopamine, that contribute to mood and mental clarity.

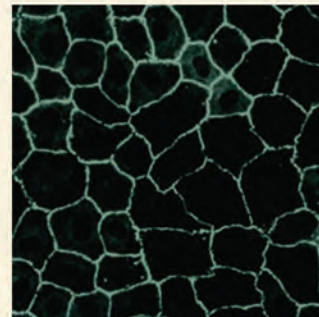

Nutrient Absorption

ION* acts as a carrier molecule, binding to nutrients to help deliver them to the cells.

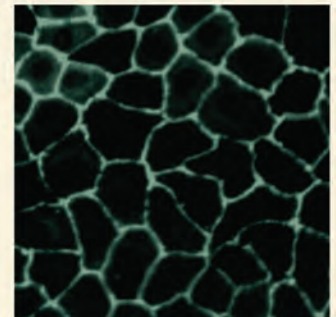

Designed by nature, proven by science

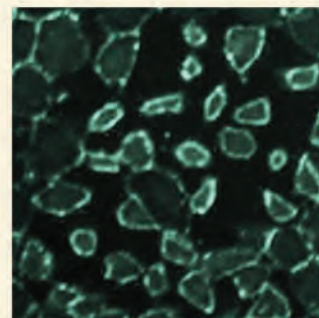

In third party peer-reviewed studies, ION* is proven to support tight junction integrity, even in the presence of toxins, such as glyphosate.

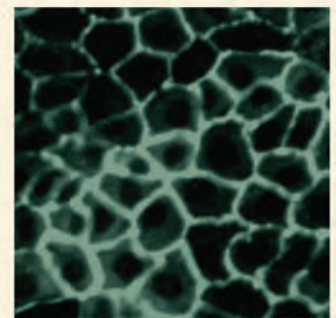

Normal gut lining

Gut lining supported with ION*

Gut lining compromised by glyphosate

Gut lining compromised by glyphosate, supported by ION*

Why ION* Gut Support?

80% of the population suffers from gas, bloating, indigestion, and heartburn, with a good majority stemming from poor gut health. An unhealthy gut can lead to inflammation throughout the body.

The modern-day causes of prevalent gut and health issues include antibiotics, glyphosate damage, and a lost connection with nature. Our microbiome is not thriving as it should, and neither are we. Rather than address a specific condition with a narrowly-targeted supplement, ION* Gut Support takes a holistic approach, helping to maintain gut and immune function, to create an environment that supports the whole you—body and mind.

The best way to take ION*

ION* can be taken alone, or added to purified water, juice, or a smoothie. Frequency is much more important than timing, and the most important thing is consistency.

Optimal gut support is achieved when taken 30 mins before meals, but ION* Gut Support can be taken with or after a meal and still be beneficial.

Our Simple Ingredients

- Humic Extract (from Ancient Soil)

Our humic extract is derived from ancient soil rich in beneficial metabolites. These metabolites combined with trace minerals create fulvate, a family of molecules that is at the heart of our science.

- Purified Water

Serving size: 1 tsp (5ml) three times per day.
